Wood River Valley Bridge No. 404, I-95 North & South (7T-A)

CITY/TOWN OF Hopkinton

COUNTY OF Washington

NOTICE TO PROSPECTIVE BIDDERS

ADDENDUM NO. 2 Prospective bidders and all concerned are hereby notified of the following changes in the Plans, Specifications, Proposal and Distribution of Quantities for this contract. These changes shall be incorporated in the Plans, Specifications, Proposal and Distribution of Quantities, and shall become an integral part of the Contract Documents.

A. Contract Documents

1. Section 2.6.3.4 Wetland and Water Quality Mitigation

Revise Paragraph 2 to "The DB-Contractor shall maintain the natural flow characteristics of Wood River as required in the Approved permits. The use of temporary river crossings shall not be allowed."

ADDENDUM NO. 2

Administrator, Division of Project Management

2.6.3.2 Preconstruction Conference(s)

The DB-Contractor shall conduct one (or more, if appropriate) pre-construction conference(s) prior to any construction activity to discuss environmental and permitting issues, which shall include all subcontractors, and to the extent feasible, representatives from the U.S. Army Corp of Engineers, RIDEM, the DB-Contractor, RIDOT, and others as deemed necessary.

2.6.3.3 Construction Phase(s)

The DB-Contractor shall be responsible for compliance with all of the environmental commitments/requirements outlined in the Special Provisions and Notice to Proposers as provided in the environmental commitments contained within the NEPA Approval. The commitments/requirements shall be complied with during all phases of the construction activities. Upon completion of the Construction Work, the DB-Contractor shall certify that all construction activities have complied with all of the environmental commitments/requirements. RIDEM or RIDOT will have the authority to suspend all Work for noncompliance with the environmental commitments/requirements.

2.6.3.4 Wetlands and Water Quality Mitigation

The DB-Contractor shall fulfill the terms and conditions of the Clean Water Act Section 404 permit, Section 401 Water Quality Certification, RIDEM Freshwater Wetland permit, and any other applicable environmental permit conditions as required by the U.S. Army Corps of Engineers, RIDEM, and any other applicable agency. The DB-Contractor shall be responsible for all river and/or wetland mitigation required to fulfill the permitting requirements.

The DB-Contractor shall maintain the natural low flow characteristics of Wood River, ~~including temporary crossings~~ as required in the approved permits. The use of temporary river crossings shall not be allowed.

On March 28th and 29th, 2017, AECOM wetland scientists (PWS) conducted an onsite wetland delineation in accordance with Section 404 of the Clean Water Act (33 CFR 328), the Corps of Engineers Wetlands Delineation Manual (Technical Report Y-87-1; ACOE 1987) and *Regional Supplement to the Corps of Engineers Wetland Delineation Manual: Northcentral and Northeast Region* (USACE 2012), and the State of Rhode Island and Providence Plantations Department of Environmental Management's *Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act*.

Reference Volume 4, Appendix A, Section 10 for a narrative of the wetland delineations.
